1948-49

NO. 1—*Eustoma Russellianum* (**TEXAS BLUEBELL**)

also called blue Gentian. Biennials. These plants produce numerous blue, bell shaped flowers 3 inches in diameter from June until frost. Plants not affected by cold to 10 below zero. They must be grown in wet soil. Transplant not earlier than October nor later than April 1st. Young plants that will bloom the first season @ \$2.50 per dozen. Pkt. seed 25c

NO. 2—*Lupinus texensis* (**TEXAS BLUEBONNET**) Texas State Flower. Annuals. These plants are mass of blooms in the early spring. Dark blue spikes. These plants will grow in any good soil. Pkt. seed 20c.

NO. 4—**SCARLET BUGLER** (*Pentstemon Barbatus*) Biennials. Attractive 2 foot tall plants with large gray leaves. Many 12 to 18 inch spikes of scarlet flowers from early spring until late summer. Hardy plants @ \$4.00 per dozen. Pkt. Seed 20c

NO. 5—*Pentstemon Cobaea* (**BELLADONNA**) Biennials. These plants with single stalks tipped with a large spike of pale blue flowers. Will grow in any good soil. Well rooted plants @ \$3.00 per dozen. Pkt. Seed 20c

NO. 119—*Ephedra Antisyphilitica* (**JOINT FIR**) Perennials. Slender leafless stalks, dark green with bronze flowers in spring. Fine plants \$1.00 per foot.

NO. 7—*Pentstemon Ambiguus* (**PINK PENTSTEMON**)

Perennials. This small globular shaped shrub is covered with pinkish white blooms during June and July. Well rooted plants @ \$1.00 per foot. Pkt. Seed 20c. Will grow in any good soil

NO. 13—*Gilia Aggregata* (**MT. CYPRESS**) Annuals. This plant is similar to No. 12 except that it is branched and blooms in late summer and early fall. Will grow in any good soil. Well rooted plants @ \$3.00 per dozen. Pkt. Seed. 20c

NO. 15—*Oenothera Serrulata* (**PERENNIAL PRIM-ROSE**) This hardy shrub is a mass of primrose yellow flowers from spring until fall. Plants \$1.00 per foot. Pkt. Seed 20c

NO. 18—*Liatris Puncata* (**BLAZING STAR**) Perrenials. For a beautiful late blooming plant this is a favorite. In the late summer and late fall this plant has a dozen or more 12 to 18 inch spikes feather purple colored flowers. Easy to grow in any good soil. Large bulbs @ \$1.00 each. Packet Seed 20c.

NO. 124—*Larrea Tridentata* (**CRESOTE BUSH**) Black green, small leaved ornamental plants, make attractive small hedges, useful in erosion control work. Hardy plants in dry soil. Balled plants \$1.50 per foot. Pkt. Seed 20c.

NO. 91—Hesperaloe Parviflora (**RED FLOWERING YUCCA**) Perennials. The only red flowering yucca. The plants multiply by 3 or 4 plants each year. The clumps can be separated and transplanted easily. A single clump will produce as many as 20, 6-foot stalks tipped with red flowers, the stalk itself is red also. Hardy plants in any good soil. Plants \$1.00 per foot. Pkt. Seed 25c.

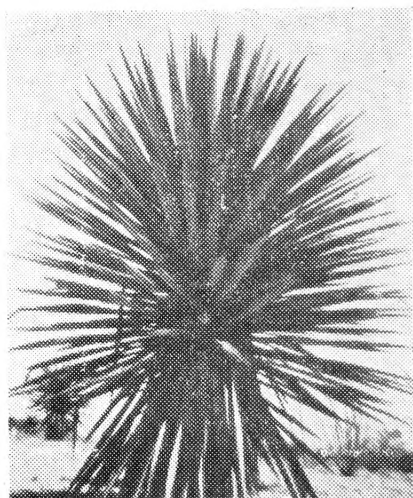

NO. 92—Yucca Toreyia (**SPANISH BAYONET**) In good soil this plant will grow to 30 feet tall with long dark leaves. Useful in many places, the plant will grow about 1 foot per year under normal conditions. Plants \$1.00 per foot. Pkt. Seed 20c.

NO. 96—Dasylirion Texanum (**SOTOL**) Perennials with long saw tooth leaves and the plant has many uses. (Picture on page 1). The bloom stalk is often 15 feet tall. Well rooted plants @ \$1.00 per foot. Pkt. seed 15c.

NO. 93—Yucca Macrocarpa (**WESTERN DAGGER**) This is a palm like yucca, often the trunk is 1½ feet in diameter, the leaves are broad and dark green. This is a very hardy yucca. Plants \$1.50 per foot. Pkt. Seed 20c.

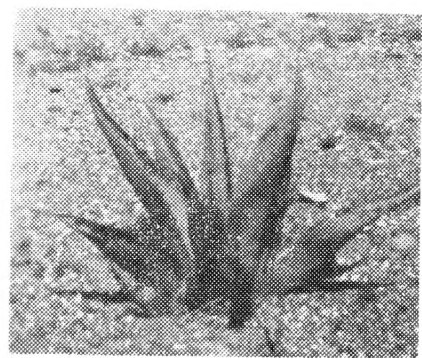

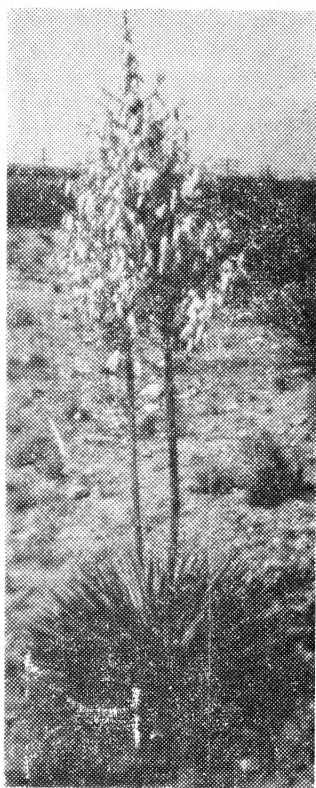

NO. 116—Agave Lechugilla (**LECHUGILLA**) This agave grows to a height of about 2 feet and has a bloom stalk about 10 feet tall. This is a hardy plant and will grow in any dry soil. Well rooted plants 75c. Pkt. seed 15c.

NO. 95—Yucca Elata (**TREE YUCCA**) This is called the tree yucca because it branches out like a tree. Large stalks of lily like flowers in early summer. Plants \$1.00 per foot. Pkt. seed 15c.

NO. 117—Juniperos Pachyphloea (**ALLIGATOR JUNIPER**) Ornamental shrubs or trees with blue green foliage. Will grow in any good soil. Balled Plants. \$1.50 per foot. Pkt. Seed 20c.

NO. 118 — Pinus Cambroides (**PINYON PINE**) A very compact growing dark green plant, very ornamental. Balled plants \$1.50 per foot. Pkt. seed 25c.

NO. 122—Sapindus Drummondii (**WILD CHINA**) Drouth resistant trees, ornamental and used in erosion control work. Plants 75c per foot. Pkt. Seed 15c.

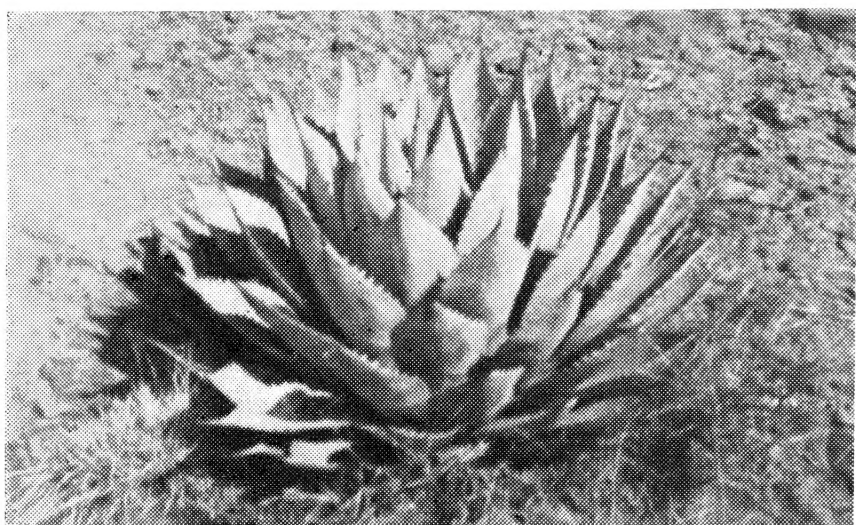

NO. 97—Agave Americana (**CENTURY PLANT**) Tropical plants with long wide leaves, the plants grow to 8 feet in height and the bloom stalk is usually about 30 feet tall. They will grow in any dry soil. Plants \$1.00 per foot. Seed Pkt. 20c.

NO. 6—Pentstemon Harvardii (**WILD SNAPDRAGON**) Biennials. Very attractive plants with 10 inch snapdragon like flowers in the spring. Grows best in rich moist soil. The best plants @ \$4.00 per dozen. Pkt. Seed 20c.

NO. 8—Pentstemon Murryanus (**GREAT RED PENTSTEMON**) Biennials. Hardy plants in rich moist soil. The plant has a 3 foot stalk in the spring tipped with a large cluster of red flowers in spring and summer. Nice plants @ \$4.00 per dozen. Pkt. Seed 20c.

NO. 12—Gilia Rubra (**STANDING CYPRESS**) Biennials or Annuals. Attractive plants with fern like foliage, dark green. In the spring this plant has a tall stalk tipped with a large cluster of red flowers. Hardy in any soil and requires little moisture. Excellent plants @ \$3.00 per dozen. Pkt. Seed 20c. Blooms in spring.

NO. 98—Agave Wislizeni (**MT. AGAVE**) A small com-

pact growing plant usually about 3 feet tall. These plants can stand severe cold. The bloom stalk is around 20 feet tall. This agave will grow in any soil. Fine plants \$2.00 per foot. Pkt. Seed 20c.

NO. 24—Lobelia Carlinalis (**CARDINAL FLOWER**) Annuals. These plants like plenty of moisture and shade. A fine plant to grow with bluebells. Large spikes of blood red flowers. Choice plants \$4.00 per doz.

NO. 114—Argemone Mexicana (**WILD YELLOW POPPY**) Annuals. Hardy plants which bear numerous large yellow flowers summer and fall. Pkt. seed 20c.

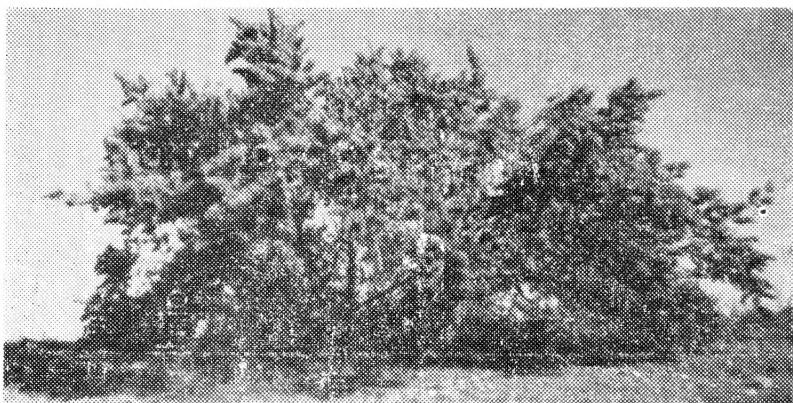

NO. 84—Tecoma Stans (**YELLOW BELLS**) Perennials. A very good plant and is in constant blooms from spring until fall. Blooms large yellow trumpet shaped. Plants will grow in any good soil. Nice plants \$1.00 per dozen. Pkt. Seed 20c.

NO. 83—Poinciana Gilliesii (**BIRD OF PARADISE**) Perennials. Hardy plants in any soil and bears numerous clusters of yellow and red flowers throughout the summer. Plants \$1.00 per foot. Pkt. Seed 15c.

NO. 121—Prosopis Pubescens (**TORNILLO**) Perennials. A small mesquite like tree which bears clusters of seed pods that resemble wood screws. Hardy plants. 3-foot plants \$1.00. Pkt. seed 15c.

NO. 123—Acacia Tortuosa (**HUISACHILLO**) Drouth resistant small shrubs used in screens and erosion control work. Plants 50c per foot. Pkt. seed 15c.

NO. 120—*Atriplex Canescens* (**CHAMIZA**) Perennials.

Small shrubs with gray-green foliage and covered with brown capsule seed pods in the fall and is very attractive. Used as hedges, ornamentals and erosion control work. Plants balled @ \$1.00 per foot. Pkt. Seed 15c.

NO. 79—*Cassia Lindheimeri* (**VELVET SENNA**) Perennials.

Fast growing shrubs useful in landscape work and erosion control. Hardy in any soil. Yellow flowers. Plants in clumps \$1.00 each. Pkt. Seed 20c.

NO. 125—*Tamarix Gallica* (**SALT CEDAR**) Deciduous plants, will stand severe cold, fine for wind brakes and hedges. Blooms mixed bronze and lavender. Grows best in moist soil. 3 foot plants \$1.00.

NO. 126—*Arbutus Texana* (**MADRONA TREE**) Beautiful trees or shrubs, the limbs are smooth and white, greenish white flowers, large thick glossy leaves and bright red flowers. The ladies tree. Plants rare, \$3.00 per foot. Pkt. seed 25c.

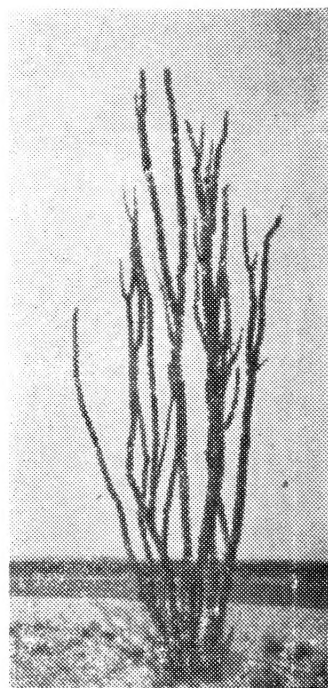

NO. 127—*Populus Tremuloides* (**ASPEN COTTONWOOD**) Extra large beautiful shade trees. Where there is an abundance of moisture, this is a choice tree. Plants 75c per foot.

NO. 82—*Chilopsis Linearis* (**FLOWERING WILLOW**)

In good semi-moist soil this plant will grow 6 feet in one season from seed. It has large trumpet shaped purple and white flowers. Will grow in wet or dry soil. A good plant. Well rooted plants 25c per foot. Pkt. Seed 15c.

NO. 99 — *Fouquieria Splendens* (**OCOTILLO**) A perennial. Peculiar plants with thorny cane-like stalks with small leaves and in early spring the plants have large clusters of striking red blooms at the tips. These plants will grow in any dry soil. Plants \$1.00 per foot up to 5 feet. Pkt. Seed. 20c.

NO. 128—*Juglans Major* (**SPANISH WALNUT**) Hardy small trees with many uses such as landscape work and erosion control work. Plants \$1.00 per foot. Seed Pkt. 15c.

If you have not found what you want in this list, send for my No. 1 list which has 113 listings including cacti. All shipments postpaid. Write for prices on wholesale quantities on seed or plants. Directions for planting seed on all packages. Biennial seed should be planted in the fall or early spring so the plants will bloom the first year. Plant perennial seed in spring and summer. Most annual seed should be planted in the early spring.
